

Hardware Detail Tools: Hardware Detail BOM Settings

Programmed Result of Tool:

This tool will allow the user to add and remove schedule names to the list that will be added to hardware details by the Hardware Detail tool. These schedules will be added as is to every hardware detail created by the tool without any change made to the schedule. This is intended to be used for headers, but it will work for any schedule. The folder path for the settings file can be edited in the EDGE Preferences tool.

Steps to Perform Tool Operation:

Add a schedule:

- 1) Press "Add Row" button.
- 2) Double click in the new row.
- 3) Type name of the schedule as it appears in the project browser.

Delete a schedule:

- 1) Click on a row to select it.
- 2) Press "Delete Row" button.

Edit existing schedule:

- 1) Double click existing row.
- 2) Type desired changes into the row.

Save desired changes:

- 1) Click "Save" button.

Cancel all edits made to the list:

- 1) Click "Cancel" button.
