

Selection and Pinning Tools: Select All Structural Framing Elements

Programmed Result of Tool:

This tool will allow the user to select all structural framing elements in the entire project with a single click.

Structural framing elements are the basis of all production elements in EDGE^R.

Steps to Perform tool Operation:

- 1) User clicks the Select All Structural Framing Elements icon.
- 2) All structural framing elements in the entire project are now selected.

Known Limitations:

- Structural Framing Elements in linked projects will not be selected.
